INTRODUCTION

PikaShiba Inu, is the next decentralized cryptocurrency token on the BSC network. PikaShiba is a dog-coin meme token, a community driven built on a foundation of transparency and open communication. This is so crucial for a new token in today's market for organic growth and healthy wallet distribution. It is expected to become a potential new trend in this volatile market. Apart from the above, the developers aim to launch the play-to-earn game and PikaShiba metaverse.

WHY PIKASHIBA INU?

If you love memes, This is the best driven meme coin the team aims to build. Also, the developers plan to release a P2E game based on Pika's character with metaverse.
